

# Important Instructions for Headphone Cable Connection

If the cable is not fully seated or plugged in with the wrong end, you may experience no audio or intermittent audio through one of the channels.

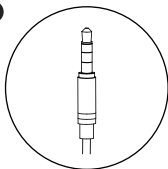

1.2 meter portable cable with mic and controls for Apple or Android device:  
(For the one without mic and controls, both ends are interchangeable.)

1

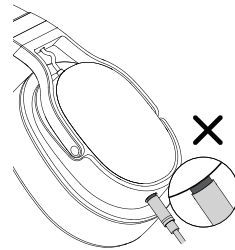

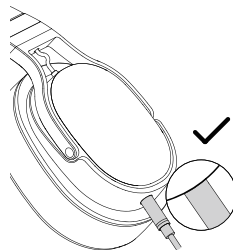

The connector that is closer to the microphone and has two rings plugs into the headphone.

2

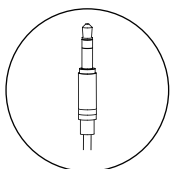

The connector with three rings plugs into your mobile device.

Ensure that you are pushing hard enough to hear the cable click into place.

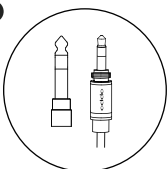

3 meter cable with 3.5 mm plug and screw-on 6.35 mm adapter:

1

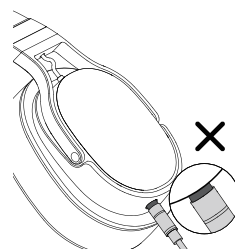

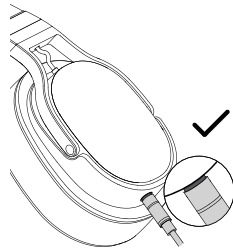

The smaller, non-threaded connector without the OPPO logo plugs into the headphone.

2

The larger, threaded connector with the OPPO logo and 6.35 mm adapter plugs into your audio device.

Ensure that you are pushing hard enough to hear the cable click into place.
